

**SENIOR VOLUNTEER (AGE 55 AND OVER)**  
***GLORIA NELSON***

---

**RESOURCE AT YOUR FINGERTIP!** After being diagnosed with a rare neurological condition and growing frustrated at the lack of resources to educate herself, Gloria Nelson teamed up with her son Jeff MacWright to develop a website for people suffering orthostatic tremor.

Since its launch, she has helped hundreds of people, both nationally and internationally by providing them with information and support. Gloria responds daily to questions and requests for resources from doctors, patients and family members.

Using the website as a vehicle, Gloria organized the first meeting for people with orthostatic tremor in NJ.

The OT Resource, <http://www.orthostatictremor.org>, is evidence of a quest to relief the burdens and frustrations of others. Gloria is a true example of how one person can use his or her own experiences to pave the way and make some else's journey a little less arduous.
